Step 1: See how recent Medicare changes affect you

Benefits you depend on may be going away. Plus, the copays and deductibles for your doctor visits and prescriptions may be going up.

And although you have the right to know what's changing, it isn't always easy to find the information you need to make an informed decision about your coverage.

The good news? Most of our popular Medicare Advantage plans will remain largely the same next year. And where there *are* changes, it typically means lower out-of-pocket costs for you.

FACT: There were BIG changes to Medicare this year

Which could affect your coverage *next* year...

Step 2: Ask yourself these questions

Medicare costs and benefits change every year. Be sure your current coverage is still your best choice.

- Has my health changed this year?
- Will my budget change next year?
- Will I be paying more for my prescriptions next year?
- Does my doctor take a personal interest in my health?
- Am I getting responsive, personalized service from my plan?
- Has a life event (a move, new job, retirement) affected my coverage needs?

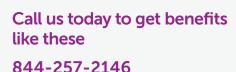

Step 3: Compare benefits*

When you switch to a Medicare Advantage plan from Jefferson Health Plans, you can count on dependable benefits and savings like these:

- \$0 or low monthly premiums
- \$0 copays for primary care visits
- \$0 labs and low copays for most testing
- \$0 medical deductibles
- \$0 prescription drug copays on all plans
- Copays as low as \$5 for urgent care visits

Plus, added benefits including:

- Vision & dental coverage, including benefits for more extensive dental work
- Hearing exams
- Flex card for spending to fit your health needs
- Free and discounted access to fitness classes
- An over-the-counter spending benefit
